Free Cyber Toolkit

The Global Cyber Alliance is an international, cross-sector effort dedicated to eradicating cyber risk. Founding organizations are the City of London Police, the NY District Attorney's Office, and the Center for Internet Security.

Part of their effort has been the creation of a cyber tool kit, sponsored by MasterCard, gcatoolkit.org/smallbusiness/. The cyber toolkit is a compendium of free and effective tools/resources that can be used to take immediate action to reduce risk for businesses.

This cyber toolkit will continue to be updated and they would like to have SENEDIA members be among the first to have access to it. The tool kit is free. As first step, we reached out to several experts to review the toolkit. They all concurred it is a valuable resource. We are now sharing this cyber toolkit, gcatoolkit.org/smallbusiness/, with our member companies for their use as appropriate.
