About Us

SENEDIA's is a catalyst for thought leadership and technical innovation in undersea technology, cybersecurity, and other critical defense

Member Spotlight: [Trilogic Systems Corporation](#)

What is your company's history?

For over 30 years Trilogic Systems provides embedded COTS computing solutions for military applications. We have been providing these solution for over 30 years.

What services and/or products does your company provide?

We specialize in rugged embedded computers targeted at shipboard, ground based and airborne applications. In addition to our rugged servers and displays we offer Small Form Factor (SFF) COTS technology designed for unmanned and robotic applications. This includes a wide array of GPU based AI/Machine Learning products. We also offer systems integration resources and custom designed solutions.

Why do you consider membership in SENEDIA valuable?

technologies. We enable the development of innovative technology, foster thought leadership, and facilitate related economic and workforce development programs.

Membership

Not yet a Member? SENEDIA provides resources, access, networking opportunities and connections with your peers.

Interested in joining? Please view our [member application here](#).

Job Openings

One benefit for members is posting job openings on SENEDIA's website. There are [several postings currently on SENEDIA's website](#).

If you would like to post your company's openings, or link to your company's career webpage, please contact us at senedia.info@senedia.org.

Our membership in SENEDIA has offered us unparalleled access to strategic decision makers responsible for implementing our technology and who help set the direction for future defense requirements.

If a company wants to do business with yours, whom should they contact?

David Paul - President
Trilogic Systems
Email: dpaul@trilogicsys.com

30 August-1 September 2021 at the Marriott Newport!
Save the Date!

2020/2021 SENEDIA STEM Scholarship Opportunity Deadline Extended

SENEDIA will award a minimum of two \$1500 scholarships for the 2020/2021 academic year to students who are actively pursuing studies related to Science, Technology, Engineering and Mathematics (STEM) career paths. These areas of study are the backbone of the skills and experiences that are important elements in supporting the future of national security and the defense sector.

Student applicants must be a U.S. citizen; a resident of Southeastern New England (RI, MA, CT); entering their third year of study (or higher) in the 2020-2021 academic year; and a matriculating student enrolled in a STEM-related field at an accredited college or university located in the U.S.

The 2020-21 SENEDIA scholarship application is available [here](#). The deadline for applications is **Friday, October 30, 2020**. For more information, please contact Linda Larsen at llarsen@SENEDIA.org.
