SENEDIA – the Alliance for Defense Tech, Talent, and Innovation

SENEDIA supports, grows, and strengthens our region's defense industry by...

Connecting

- Inform, prepare, and position companies for success
- Bridge between companies looking for talent with people looking for high-wage, high-growth, high-demand careers

Partnering

- Collaborate across government, education, defense, business, R&D, media to develop creative ways to boost the economy and create job opportunities

Convening

- Bring defense leaders together to hear the latest innovations and foster opportunity to collaborate to strengthen the industry in the region
- Work to educate the broader community about the economic impact of the industry

Undersea Technology Innovation Consortium

UTIC is an outgrowth from and strategic partner with SENEDIA

Promotes rapid development, testing and commercialization of innovative undersea technology

Manages the Industry Consortium for the Navy's Other Transaction Agreement for innovative undersea and maritime technology
